Ewo's dun Dorby griffin negociated the mile 353, 1.114 1.474, 2.214, but finished misorably and appeared as though he could not have gone another ten wards. I trust that the stable has a better beast in their other griffin, which has not yet made his debut on the course. He is reported to be a good un, and it will be bad joss for the great hong if he is not. From the same stable came Talisman, timed over the mile 37, 1.14, 1.503; 2.234 He was ridden berd and did not go with his old freedom: Two subs. of Mr. Humphreys' and Swift, the property of some of the Tai Yak Fong goutlemon, went for a now " over three quarters of a mile, clocked at 321. 15% L414: Swift finished in front of his communion by about two lengths, and as he appears a strong and shapely one he almost cartain to appear prominently in some of the events on the card, if steered by a strong rider,

W. A. Dalf (Syratary.) The CHAIRMAN said-Gentlemen, the report of the directors was is med on the 18th instant, and unless you wish otherwise I will take it as read, I think, gentlemen, it will not be too much to say that this is the last, unfavourable report you will have presented to you. It is with great regret your directors have to meet you on this occasion with accounts that show a loss, but that loss would not have occurred if it had not bean abligatory upon us to write off as bad dides a large portion of what were taken near by the present Company as good assets from the old one. The directors have no wish to impagn the good faith of our late Secretary in presenting a list of these ussets; in the focus of " Accounts Receivable," duly aftested by himself, to the directors and auditors; but if we had been fully aware of oircomstances that came to our knowledge later. during the abress of the Sicretary on leave, we should never have allowed many of the accounts to appear to that list: -The fact is, gentlemon the late Secretary, whilst fulfilling all that could baye been desired as 'm inager of the works and michinory, was not equal to his clerical duties in the office, and in the case of several disputed amonata, sylloh he probably imagined he could recever, the Company found itself without a leg to stand on when prement was resisted. The difficulty in a small, struggling entirpies like ours has been to find a decent degree of efficiency in two different departments, works and office, combined in one individual: It has above been withis our moans to employ a skilled man for each, but I am happy to say we have now made arrangements whoreby a recurrence of what has taken place becomes impossible, and that without materially increasing expanses. The works have been kept up in a very efficient state, and many improvements made which have. been paid for out of income. The typhoon in October last oursed us a let of damage in various ways, the actual loss of goods in process of manufacture being \$1,109. It has

bada becassary to raise the height of the floor of the large sheds, and tile the same, to put our goods during the drying process above the reach of flunds which occasionally, for years past, we hope that in future our drains will be capable has been laid from the kilns to the wharf to supersode the laborious and gostly method of conveying goods to the beats by hand barrows. New matshads have been built to place of old ones carried away in the typhoone, and the whart has been practically reconstructed for the greater part of its length. All this work has been carried out by our new Secretary and Manager, Mr. W. A. Duff, ably seconded by Mr. Watte the foreman at the works, to both of whom our best thanks are due for that unremitting exertions in the Company's int rests. With repard to the sales of the Company's products, after declining to a very law eb period from November, 1892, to M'y, 1893, they afterwards largely increased, the average of the latter five months of the year being double that of the previous seven months, while I am happy to tell you further that our sales in November (after the accounts now before you were closed) were more than double, those of the run to Blackhead's point, Payne baving her preceding month, and at the present time we are full of orders that will keep the Company in jibe. At the wharves spinnakers were handed full work for the next four or five months; in fact we have bad to decline orders that required to be delivered within that period. Under a new contract with the Government we have delivered 7,519 lengths of pipe, and the Pablic Works Department officials are well satisfied with the quality of the goods and the despatch in supplying them. I may mention that the "rejects" amount to less than 24 per cent, which under the stringent tests imposed is very satisfactory. Our firebricks have been greatly improved, and an unsolicited testimonial from our largest customer has been intely received. What I have stated, gentlemen, are to efacts a not which your directors base the hope and expectation convey-

ed in my opening words,—that this may be the last un avonrable report you will receive f om them. We have worked assiduously for Boyen years in the face of almost overwhelming difficulties, but we think the Company is now secure and on the eve of taking a place among the dividendpaying industries of the Colony. There being no questions, the CHAIRMAN noved the adoption of the report and accounts. Mr. W. H. RAY seconded Carried ananimously. On the motion of Mr. DANBY, secondar by Mr. JORDAN, the appointment of Mr. Humphreys as

a director in place of Mr. Wotton (who has left the Colony) was confirmed. Mr. JORDAN moved and Mr. SHITH seconded that the retiring directors (Mesars. Gillies and Chater) be re-elected. Carried unanimously. On the motion of Mr. RAY, seconded by Mr. SKEELS the anditors (Messra: T. I. Rose and
